

# Table of Cellular Components

| Name of Component            | Plant | Animal | Function |
|------------------------------|-------|--------|----------|
| Cell Membrane                |       |        |          |
| Flagella                     |       |        |          |
| Rough Endoplasmic Reticulum  |       |        |          |
| Smooth Endoplasmic Reticulum |       |        |          |
| Nucleolus                    |       |        |          |
| Nuclear envelope             |       |        |          |
| Nuclear Pores                |       |        |          |
| Nucleus                      |       |        |          |
| Ribosomes                    |       |        |          |
| Golgi Apparatus              |       |        |          |

# Table of Cellular Components

| Name of Component | Plant | Animal | Function |
|-------------------|-------|--------|----------|
| Central Vacuole   |       |        |          |
| Mitochondria      |       |        |          |
| Lysosome          |       |        |          |
| Cell wall         |       |        |          |
| Small Vacuoles    |       |        |          |
| Chromosomes       |       |        |          |
| Chloroplast       |       |        |          |
| Cytoskeleton      |       |        |          |
| Cilia             |       |        |          |
