

Name _____ Date _____ PD _____

The Cell - Graphic Organizer

Directions: Match each cell part with its function. Place the parts in the circles and the functions on the connecting lines on the next page.

Parts

Cell Membrane
Cell Wall
Mitochondria
Chloroplast
Vacuole
Lysosome
Golgi
Ribosome
Nucleus
Nucleolus
Nuclear membrane

Functions

Makes proteins
Storage tank for the cell
Makes Ribosomes
Protects the cell
Packaging center for the cell
Lets things in and out of the cell
Control center of the cell
Lets things in and out of the nucleus
Makes food for the cell
Contains digestive enzymes to break down substances in the cell
Converts food into energy

The Cell

Write Name of Organelle Here

Write function of Organelle on the line

**Draw what the organelle looks like
in the circle.**
