

## Chapter 9 Cellular Respiration

### Section 9-1 Chemical Pathways (pages 221-225)

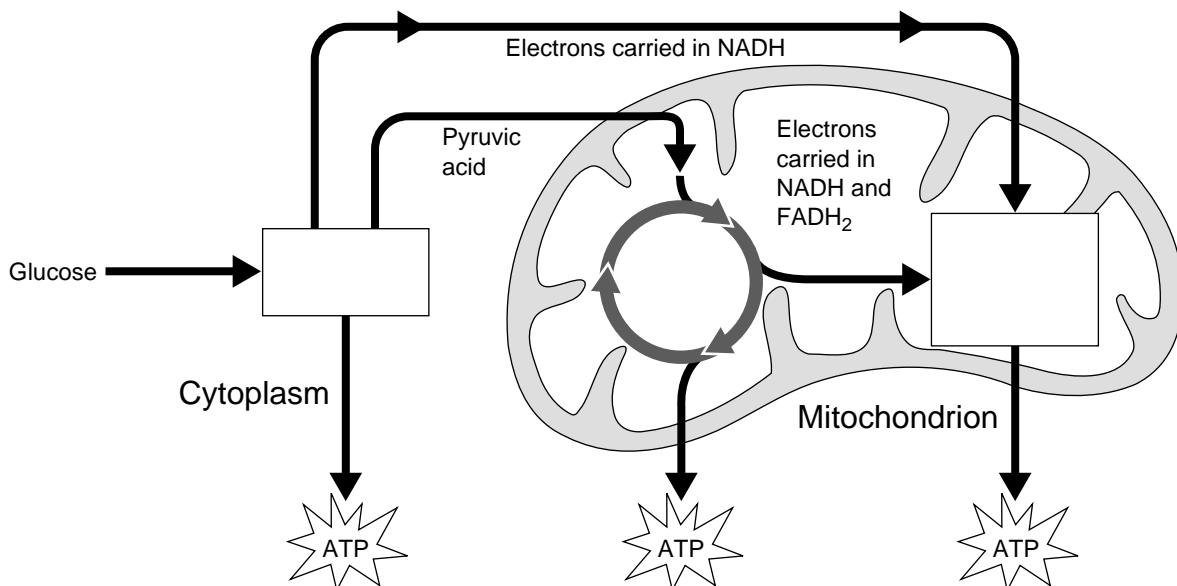

*This section explains what cellular respiration is. It also describes what happens during a process called glycolysis and describes two types of a process called fermentation.*

### Reading Skill Practice

When you read about complex topics, writing an outline can help you organize and understand the material. Outline Section 9–1 by using the headings and subheadings as topics and subtopics and then writing the most important details under each topic. Do your work on a separate sheet of paper.
