

BL4 Internet research

Use the internet to do the following:

1. Name at least 4 BL4 organisms.
2. Describe the disease caused by two BL4 organisms.
3. Describe the extreme containment procedures in a BL4 lab that prevent the escape of such organisms.
4. What is the closest BL4 lab facility to Brandywine High School?
5. Identify and describe the circumstances of one Outbreak of a BL4 organism. Give me location, date, method of transmission, death rates, and any other pertinent information.
